3 PRODUCT CATALOGUE | KRUSE CONTAINER

## COMPANY OVERVIEW

With over 38 facilities located throughout United States and Mexico, Kruse Containers is proud to be Australasia's largest container provider. We specialise in the hire, sale and modification of new and refurbished shipping containers. Kruse Containers has over 23 years of experience and a commitment to providing superior customer service. We offer a wide range of shipping container and portable building products to suit your every need.

When dealing with Kruse Container, you can be confident you're dealing with a professional team who understand the shipping container industry and committed to finding the perfect solution for you.

Kruse Container's dedication to product development and innovation has resulted in an extensive container product range for sale, with many of

our products now the industry standard for their application. Our product range continually expands as our customers turn to us to assist in creating solutions to suit their individual needs. We can customise our shipping containers to create a tailor made solution to meet your requirements.

As Australasia's leading supplier of shipping containers, Kruse

Containers provide quality products and services to over 20,000 businesses and individuals each year. The key to the cost effectiveness of a container is its portability and strength, even after considerable modifications. Kruse Container's are choosing shipping containers as a flexible solution to portable

storage needs and are reaping the rewards of the container's long life.

# Kruse LOCK SAFETY CONTAINER OVERVIEW

The Kruse Lock safety container is a tri locking system with vault like security and a safety exit feature exclusive to Kruse Container.

Containers fitted with the Kruse Lock provide the same secure, weather and vermin proof storage as conventional containers, but with two big advantages - they are easier to open for fast, regular access and they can be opened from inside the container in case of accidental door closure.

If you want to access your stored goods regularly, if you want to reduce the possibility of injury, or have multiple people accessing the container and therefore at risk of accidental door closure, the Kruse Lock safety container is the perfect solution for your storage needs.

The Kruse Lock can be easily opened with a single motion using light pressure and there is no bending or stress involved. From the inside, the emergency exit handle is fitted with a glow in the dark label so it can be easily located in the event someone is in the container when the door is closed.

## PRODUCT BENEFITS

- No bending to open the door reducing the risk of manual handling injury at work
- Safety exit feature - preventing lock-in
- Doors open easily using one hand
- Exclusive Kruse Containers patent pending design
- Ability to use Kruse Containers block lock

## AVAILABLE IN

- 10ft high cube pallet
- wide 20ft general purpose
- 40ft high cube

# MINI CUBE SHIPPING CONTAINER

## OVERVIEW

Kruse Container's Minicube is a portable shipping container unit that provides strong and secure portable storage, ideal for use as a storeroom, garden shed or worksite storage, amongst a number of other applications.

At just 2.3m by 2.3m, Kruse Container's 8ft Minicube shipping containers, are less than half the size of a standard shipping container enabling them to fit in tight spaces with a small footprint.

## DIMENSIONS

# 10FT HIGH CUBE PALLET WIDE CONTAINER

## OVERVIEW

Kruse Container's 10ft shipping containers offer an extra 30cm height and 4cm width than a standard storage container, providing a storage container option for those with limited space. Whilst the height is ideal for larger items, the extra width provides just enough room to fit two United States standard pallets side by side on the floor.

Kruse Container's new shipping containers have been shipped to United States containing cargo - in order to reduce shipping costs - and often referred to as "one trip". They may arrive with slight scratches, scuff-marks or minor dents. Our one trip containers can be certified for International Shipping or Domestic Rail travel at no additional charge.

# 20FT GENERAL PURPOSE AND HIGH CUBE

## OVERVIEW

Kruse Container's 20ft shipping containers are strong and secure. New and premium used containers are wind, water and vermin proof, ensuring your items are kept in premium conditions and are portable allowing for relocation of your container whenever needed.

Ideal for storing personal effects, business documents, sporting equipment, tools, machinery and just about anything else, Kruse Containers can provide the answer to all of your storage needs.

# 20FT HIGH CUBE OPEN SIDE CONTAINER

## OVERVIEW

The open-side shipping container doors come with tie-backs to prevent accidental closings. Our quality locks and fittings also give you an extra layer of security. They can be moved with fork lifts, so you can load them just like you would a standard shipping container.

With doors running down the long side of the container, open side containers offer superior access to stored goods. The doors simply fold out of the way in use and then return into their closed position for secure storage.

Kruse Container's open sided shipping container can be used to hold shop-front displays or as information or sales kiosks at trade shows or festivals. Some business owners even choose to modify an open side container and make it one of their primary retail spaces.

# REFRIGERATION CONTAINER WITH EZI ENTA DOOR

## OVERVIEW

Kruse Containers offers the latest in purpose built refrigeration units for any market that requires onsite, temperature controlled storage.

Our refrigerated shipping containers for the events market are 20ft (6m) long and lined with food-grade stainless steel. The containers can be

used to refrigerate or freeze foods and beverages, given their overall temperature range capabilities of between +20° C to -20° C. For maximum usability, the containers' interiors are fitted with efficient internal lighting and drainage systems.

These refrigerated units provide many new advantages and set a benchmark for the industry - precise temperature control, one of the lowest power consumption available in the market and state of the art Carrier technology, as well as the reliability and versatility that customers have come to expect from Kruse Container.

# REFRIGERATED COLD STORAGE CONTAINER

## OVERVIEW

Kruse Containers has a range of Refrigerated Containers available to fulfill all of your cold storage needs.

Our Cool Rooms and Refrigerated Cold Storage shipping containers are inspected prior to delivery and are available with 24/7 breakdown service in metro areas (approximately 50km). Installation can be arranged with a qualified refrigeration mechanic to ensure reliability, safety and convenience.

Kruse Containers Cold Storage and Refrigeration Storage products are thermostatically controlled, maintained to the highest standard and are suitable for the storage of food and drinks as well as a number of other applications. Optional features range from alarms, digital displays and Ezi Enta doors (single door enabling easy access as it eliminates the need to open the double doors).

# NON OPERATING REFRIGERATED CONTAINER

## OVERVIEW

When Kruse Containers refrigerated containers become non operational as cool room or freezer solutions, we re-purpose them as Non Operating Refrigerated containers.

With up to 100mm of insulation, a stainless steel interior and a fluted aluminum floor, Non Operating Refrigerated Containers are extremely strong and durable.

They are an excellent safe and secure storage solution for anything that requires storage in a moderately temperature controlled environment as the insulation will maintain a cooler and more consistent temperature.

Store your documents, furniture or wine in a Non Operating Refrigerated Container for greater protection and less exposure to heat.

# BUILDING AND CONSTRUCTION COMBINATION

## OVERVIEW

Kruse Containers provides a total work site solution for on-site storage, office space, ablutions and site facilities, particularly where space is tight.

As a fully stackable solution, the worksite can be integrated with a wide range of other containerised solutions such as offices, lunchrooms, amenities blocks, first aid rooms and more, to make the most of a restricted footprint. It can even be stacked up four high to create an innovative Soundwall to minimise noise disruptions to surrounding areas.

Ideal for building sites, roadworks, civil and earthworks projects, storage for trades, events, workshops and more, Kruse Container's worksite solutions are easy to transport, highly durable and flexible.

# SITE HUB

## OVERVIEW

Site Hub is a 40' High Cube Container designed to provide site facilities where there are no or limited access to services such as power and water.

Site Hub is fitted with a diesel generator, can be connected to mains power via 2 x 15a power inlets, 1000ltr potable water tank, a pump out toilet, grey water storage, kitchenette, and a separate storage bay.

The Site Hub is equipped with solar panels and batteries that power the lights, water pump and 12v fridge. This 12v system allows the fridge to run continuously without the need of mains power or generator, thus running silent and allowing ongoing storage food and drinks.

# SOUNDWALL

## OVERVIEW

Working within the confines of suburban areas, construction and event organisers often turn to Kruse Containers to provide containerised sound barriers with designated access points, stacked up to 40-feet high, in order to create an event which satisfies customers whilst providing the minimum amount of noise disruption to the surrounding area.

Kruse Containers containers also have the ability to be stacked in a wide variety of formations allowing a tailor-made solution for music festivals and other highly populated events seeking crowd control.

In 2017, Kruse Containers engineered a Soundwall for the United States Tennis Open: Kruse Containers was required to provide a 9 metre high x 80 metre long Sound Wall on a sloping surface with a curved shape to match the landscape. This required a level roof to enable signage to be attached. This facility was critical to Tennis United States's objective of delivering an outstanding spectator experience as it was to house a 12 metre LED screen providing life size player vision for the audience.

# HOARDINGS / GANTRIES

## OVERVIEW

Kruse Container's container hoardings and gantries are available for long or short-term hire and provide solid overhead protection on building and construction sites. These units are designed to ensure the safety of workers and pedestrians and provide effective 10kPa rated protection from construction materials, debris and other falling objects. The integrated modular units with floor, walls and roof guaranteeing an extremely impact resistant structure.

The hoardings and gantries are amongst the safest on the market with impressive resistance from vehicular impact, slip resistant flooring and unrivaled protection for pedestrians and workers. Kruse Container's container hoardings and gantries are designed to compliment our portable building and construction product range, including site offices, toilets and showers. The containerised portable buildings can be stacked on top to provide a complete construction work site solution.

Hire Kruse Container's hoardings and gantries for all your building and construction projects.

# PLATFORM

## OVERVIEW

Kruse Container's platforms are an engineered base suitable for use in a variety of applications. They can be used as a stacked multi-level walkway system between site amenities, overhead protection rated to 10kPa for falling objects and offer a practical overhead storage base for those tight footprint work sites.

TARE

Outside of the construction industry, platforms are used as bridge flats for culvert or creek crossings and for transporting odd shaped or larger cargo than the dimensions available in general purpose or open top containers.

# SITE OFFICE

## OVERVIEW

Site office solutions from Kruse Containers provide comfortable and secure site offices to suit all size construction sites.

A site office comes complete with entry door, window, air conditioning, lighting and power. Kruse Containers can even supply desks and chairs, notice boards, white boards, filing cabinets and fire extinguishers to supply a

site office that is ready for immediate use on delivery.

For projects that require larger facilities, Kruse Containers can offer site

offices

in a range of sizes and configurations. By combining the site office with portable toilet blocks, lunch rooms, change rooms, first aid room and hoardings, a site office can become part of a total work site solution.

# HAZARDOUS & DANGEROUS GOODS STORAGE CONTAINER

## OVERVIEW

Class 3 Dangerous and hazardous goods containers are available in three convenient sizes - 8ft (2.3m), 10ft Pallet Width (3m) and 20ft (6m) and are fully compliant United States Standard 340-2017. Certificates of compliance can be supplied upon request.

These Class 3 containers are equipped with an internal door, leakage, ventilation, bunded floor and a lockable stainless steel valve in the bund wall, ensuring safety is the number one priority.

## CAPACITIES

The bund capacity of Kruse Container's Class 3 containers are calculated in accordance with the requirements of AS1904:2017, and volumes vary dependant on the packaging sizes. Please refer to the below tables.

### 8FT Dangerous Goods Container | 10FT Dangerous Goods Container

# 3-6 PERSON ACCOMMODATION UNIT

## OVERVIEW

Kruse Container's 3-6 person accommodation units are secure, comfortable and quiet. Ideal for worker or rural accommodation, emergency or student accommodation or even residential or mining accommodation camps. The units are designed for ease of transport therefore, making them perfect for mobile accommodation or long term accommodation solutions.

### SLEEPER UNITS PROVIDE:

- Three individual ensuite and air conditioned rooms
- Dimensions: 40ft (12.2m) x 10ft (3m) x 9ft6in (2.9m)
- Insulated with mineral wool insulation bondor style
- Plug capacity: Single phase 32 amp, 30 amp demand
- Can be converted to a 6 person unit with double bed or bunk on request

### STANDARD INCLUSIONS:

- Personal access door
- Window with security screen and blackout blind
- Desk and chair
- Two clothes storage spaces
- 200 litre hot water system
- 3.5kw split system air conditioner
- Ensuite with toilet, shower and hand basin
- Flat Screen TV/DVD
- 120litre bar fridge with freezer compartment
- Coaxial and data connectivity

# MOBILE CAMP

## OVERVIEW

Kruse Container's high strength platforms create a unique strong, secure, comfortable and quiet building for your staff and contractors. The container is designed for ease of transport and therefore perfect for a mobile camp.

With split system air conditioning and insulation in all camp units, this containerised solution offers a high level of comfort no matter the location or weather.

All camps comply with the AS3000-3001 Electrical Installation and AS3500 for Plumbing. Appliances and fittings are United Statesn approved and are selected for their local support and reliability.

Our Mobile Camps are built to be moved on a regular basis, deployed and disassembled rapidly using a 'plug and play' process. Only power, water and sewerage need to be connected for each module to become operational.

Kruse Container's mobile camps are built to order and we will work with you to develop and design a solution for your specific requirements.

# EXPLOSIVES MAGAZINE

## OVERVIEW

Meeting the requirements of AS2187.1-1998, Kruse Container's relocatable explosive magazines offer ventilated storage, the security of 5mm thick steel walls that are fully insulated and timber lined and a 10mm thick door with key and manual locking devices.

The all steel external construction of the explosive magazines offers impact and cyclonic protection. Kruse Containers offers support in certification, footing design and detail to assist in installation. The relocatable explosive magazines (REMs) are fully ISO compliant for easy transport.

# BLAST RESISTANT BUILDING

## OVERVIEW

Kruse Containers offers an extensive range of modular blast resistant buildings that are cost effective and provide complete flexibility. The containerised blast resistant rooms enhance worker safety within hazardous environments. These buildings provide a safe zone for employees and equipment within the process areas in the event of leaked vapour ignition.

The blast resistant buildings have several general uses on site including switch rooms, operator shelters, office blocks, ablution facilities, security posts, change and locker rooms, kitchens, meeting rooms, document control rooms and safe havens.

Kruse Containers blast resistant buildings are available as standard 8ft or 10ft wide and can be joined together to form larger modules. This application is ideal for workplaces requiring large office blocks, cribs and ablutions.

Blast resistant buildings are fitted with split system or ducted air conditioning. They have integrated ventilation shut down systems with an optional gas detection system. They also have the option of manual, security controlled or fully automated door system to ensure the appropriate solution for the sites needs.

# CUSTOM MODULES

## OVERVIEW

Kruse Containers has extensive design, development and manufacturing capability supported by an extensive experience network of project partners to enhance our capability.

We have experience delivering Operational, Training, Testing and specialist modules, directly to the ADF and its prime contractor network.

Containers are the ideal equipment to customise defence modules. They are very flexible in terms of design as they allow many wall partitions and entry points, the installation of large ladders, security gates, mounted additional platforms and more.

# 10FT M IN I POP-UP CONTAINER SHOP

## OVERVIEW

Kruse Container's 10ft Mini Pop Up Container Shops offer the perfect combination of portability and security for your business.

Create a delightful coffee shop, space-saving information booth, funky juice bar or cool ice cream shop with a Kruse Containers 10ft Mini Pop Up Container Shop!

Stylishly designed with a generous servery, durable steel checker plate flooring, roll form servery bench and flexible storage areas, this compact container is the ideal small space solution to accommodate your growing business.

Highly portable and secure, it is even perfect for a branded franchise outlet, canteen, tuckshop, ticketing office and so much more.

## LAYOUT OPTIONS

# 20FT POP-UP CONTAINER SHOP

# OUTDOOR ROOM

## OVERVIEW

Do you need space outdoors for a pop-up retail store, event kiosk, tradeshow display, restaurant, café or on-site sales office?

A Kruse Containers Outdoor Room is the latest trend in creative space solutions.

Completely customisable, it is the quick, low cost way to provide portable space to accommodate your business.

Weather-proof and secure, Outdoor Rooms are even perfect for a home office, art or music studio, teenage retreat or simply a room to chill out and entertain around the pool.

The outdoor room has the same dimensions as a 20ft "High Cube" Container and weights approx. 4700kg.

# WORKSHOPS

## OVERVIEW

If you have special requirements to build a workshop that it is not only tailored for you, but it is portable, flexible and secure then Kruse Containers will be able to help.

Customising a 20ft or 40ft container, is a cost effective way to create a mobile workshop that will suit either a building site or a home business.

Our engineering and production teams can modify a standard container and transform it into an ideal working space featuring windows, access doors, customised shelving for tools/equipment providing electrical installation, air conditioning and other features as required.

# EVENT KIOSK

## OVERVIEW

The Kruse Containers kiosk is the smart way to bring that extra dimension to your sales, and customer service business. The kiosk containers are ideal as they are portable and available for short or long term hire.

Standard features include two serveries (20 ft), power, lighting, air conditioning and each unit can be individually painted to accommodate corporate signage. Safe, secure, durable and weatherproof, the kiosk is available with flexible hire options.

Kiosks are available in 10ft and 20ft sizes and can be utilised at exhibitions and as retail outlets to sell products or to facilitate services. Ideal at music festivals and product launches for mobile bars and catering.

# MODIFICATIONS OVERVIEW

## RETAIL SOLUTIONS

Retail and hospitality industries are always looking for creative ways to showcase new products or services. Kruse Container's pop up retail solutions suit a variety of applications. Adding a facade or company logo transforms the container into a contemporary container solution.

Kruse Containers shipping containers can be delivered directly to your nominated site, allowing you to adapt to retail demands.

Our in-house engineering and production teams can customise designs to meet your brand or event requirements.

## PORTABLE SHOWCASE

Strong, portable and easy to relocate, Kruse Container's containerised solutions are ideal for impactful event and tradeshow marketing.

Create a dynamic event experience by showcasing your products and services in a customised 10ft, 20ft or 40ft container. Add your logo, branding and colours to stand out from the crowd. Include internal fittings, shelving, dressing rooms or presentation spaces for the perfect blend of functionality and style. Whatever your dream design, our in-house team of engineers and draftsmen have the expertise to turn it into reality.

## EVENT ACTIVATIONS

Kruse Container's strong and durable containers can be completed transformed into exciting spaces for community events, public performances, sporting competitions, entertainment shows and so much more!

Fully engineered by our expert team, these amazing spaces can be multi-level, sandblasted, illuminated and fully branded solutions, perfectly designed for the contours, conditions and footprint of their location.

We have decades of experience in designing and developing unique platforms for events and shows.

# TRAINING FACILITIES

## OVERVIEW

Kruse Containers has extensive experience in the design, development, manufacture and installation of training and simulator modules, both for defence, firefighting, confined space training and many simulator applications.

Shipping containers are the ideal equipment to create low cost and durable training facilities. We can customise your training container by installing electricity and plumbing, plus any other requirements you may need.

Our training storage containers are relocatable, durable, secure and modified by our dedicated in house engineering and production teams which guarantee the highest quality and efficient solution for your specific requirements.

# SWITCH ROOM/ PROCESS ROOM / ENERGY STORAGE ROOM

## OVERVIEW

Understanding our customer's unique requirements is the key to Kruse Container's experienced design and engineering team being able to deliver a successful outcome.

We have built a variety of solutions, primarily dependent on the customer's unique requirements, including the size of the working site; the electrical loading; the site layout and terrain; local weather conditions; the requirement for temperature control; the ability to easily and safely relocate.

Working with our customers we guarantee practicality and functionality, such as emergency push bar doors, fire systems, ceiling cable trays, penetration and gland plates, climate control systems and other add-ons.

# 20FT, 40FT & 48FT CUBE SAVER

## OVERVIEW

The CUBE SAVER™ container features a unique vertical track and deck beam system that allows for individual pallets to be double-stacked at any height. The recessed vertical deck beam tracks maximise the cubic capacity of the container enabling the separation of sensitive freight there by minimising freight damage. The CUBE SAVER™ was developed specifically for the sensitive freight market.

## FEATURES INCLUDE:

- Available in 20ft, 40ft and 48ft sizes
- Easily adjustable deck beams
- Providing two levels of loading
- Maximises cubic capacity
- Available in various heights including 9ft 10"

# 20FT SIDE DOOR

## OVERVIEW

Kruse Containers manufactures a range of 20ft side door containers which are designed for side loading access of palletised and over dimensional freight.

The design features bi-fold doors which provide full side access for the loading and unloading of all types of freight.

## OPTIONAL FEATURES INCLUDE:

- Vented, non-vented and partially vented doors
- Slimline doors
- Adjustable mezzanine decks
- Load binders

# 40FT & 48FT CURTAINSIDE

## OVERVIEW

The Kruse Containers 40ft and 48ft curtainside containers are the units of choice for leading transport companies. They are fully intermodal, meaning they can be top lifted and are suitable for loading a wide range of freight.

The side access which curtain sides offer, allow ease of loading and unloading of both palletised and over length cargo.

## OPTIONAL FEATURES INCLUDE:

- Load binder winches and straps
- Fixed or movable roof supports
- Recessed tie down points
- Mezzanine decks
- Recessed curtain buckles to reduce maintenance costs
- Suspended gate system and sliding load binders
- Tool box, alloy tensioners
- Customised branded curtains
- Corrugated roof for added strength
- Lashing Pots
- "Gate-Assist" system
- Mechanically automated Mezzanine deck system
- Pronto Buckle-less curtains

# 20FT & 40FT TRANSIFLATS

## OVERVIEW

Kruse Containers design, test and manufacture transiflats to suit your operational requirements. Transiflats are intermodal so that they can be used to carry freight on road, rail or sea. Side end gates can be customised depending on the freight profile.

Transiflats can be nested when empty therefore reducing transport costs.

## OPTIONAL FEATURES INCLUDE:

- Checker plate steel floor
- Customised side/end gates
- Full length tie rails
- Load binders
- Recessed tool box

# 20FT BULK STANDARD & SMOOTH WALL

## OVERVIEW

Kruse Containers heavy duty dry bulk and smooth wall containers are ideal for transporting a wide range of bulk product and general purpose cargo.

Smooth wall designs are excellent for food grade and paper products.

They are designed to accommodate two United States CHEP pallets loaded side by side internally.

## OPTIONAL FEATURES INCLUDE:

- Various height options
- Roof loading hatches
- Letterbox and door discharge hatches
- Fit for purpose paint systems
- Fixtures to accommodate liner bags
- Design and manufacture of other access such as hoppers

# 24FT & 25FT CURTAINSIDE HEAVY DUTY

## OVERVIEW

Kruse Containers has a wide range of pallet wide curtainside container units capable of transporting 12 CHEP pallets on the floor of the containers. These units can be supplied with mezzanine decks for double stacking of pallets thus increasing capacity to 24 CHEP pallets.

Available in either 24ft or 25ft size range, they feature a range of options including: Hanging gates, extra ventilation, heat reflective roof coating and flush curtain buckles in the bottom side rail to reduce damage when loaded into well wagons.

The 25ft curtainside container with mezzanine deck is fully intermodal, meaning it can be lifted loaded from the 25ft top lift position. It is suitable for loading pallets up to 1100mm high above and below the deck. It is designed to suit any pallet dimensions, and is fitted with suspended gate systems and load tested curtains.

# CONTAINER RELOCATIONS

## OVERVIEW

Kruse Containers are able to offer logistic solutions to our Customers in both United States and Mexico. Our advanced Industry knowledge and extensive networks in Intermodal enables us to negotiate the challenges of remote relocations.

With over 37 Customer Service centres across Australasia, we are able to tailor container hire on a one-way basis to suit your needs.

We offer a complete logistics solution with a wide range of quality containers available nationally through our comprehensive coverage of depot locations throughout United States and Mexico.

We consistently meet delivery deadlines, working onsite with other operators where necessary to provide a fully integrated service backed up with a national call centre for convenient support and service.

# ACCESSORIES

**WHIRLYBIRD**

Kruse Containers can install a whirly bird on your shipping container to provide ventilation. The whirly bird will also provide some cooling to the shipping container for areas where electricity and air conditioning is not an option.

**AIR CONDITIONIN**

Kruse Containers can install a range of air conditioners into the shipping containers and portable buildings to ensure maximum comfort for the occupants. Our air conditioner accessories have been specially designed in retractable frames making transportation easy.

**VENTS**

Minimise odours and increase natural air flow with the installation of vents. Kruse Containers can install small vents or larger steel louvered vents on any wall of a shipping container. Vents can also assist in reducing the temperature in hot shipping containers.

**LOCK BOX**

A lock box is a device that covers the padlock on the shipping container door. It provides extra security from vandals and protection for the padlock from the weather.

**SHELVING**

Accessorising your shipping container with shelving allows easy storage for items including business documents, archive boxes, tools and personal assets. Kruse Containers can design and construct shelving to your exact requirements

**PLUMBING**

Plumbing can create sinks, toilets and showers to transform your shipping container into a portable building.

# ACCESSORIES

## ELECTRICITY

Electricity allows the provision of lighting and ensuring your shipping container can be transformed into a practical environment for your needs.

## PADLOCKS

Padlocks are a necessity on almost all shipping containers. Installed to prevent the doors from opening, padlocks help prevent thieves and vandals from accessing your possessions.

## DOORS

By choosing to install a door as an accessory on a shipping container, customers can easily access their unit and eliminate the need to open the heavy double doors at the end of the shipping container. Kruse Containers can install a variety of different doors to suit individual needs including roller doors, single and double side doors and sliding doors.

## WINDOWS

Kruse Containers have a variety of window options available for use in shipping containers and portable buildings allowing natural lighting, ventilation and a clear line of sight. Many windows are manufactured with sliding glass panels. Windows can be optioned with security bars, screens or a steel shutter.

## PAINTING

Painting and sign writing a shipping container allows the opportunity to promote your brand and products - its like having your own portable billboard. Before any painting is completed, Kruse Containers will grind back any surface rust and repair any damage to the shipping container. Painting the shipping container not only enhances its appearance but it also prolongs the life span of the unit.

## RAMPS

Ramps are ideal for minimising tripping accidents in products that have a large amount of pedestrian traffic. They are also useful for shipping containers that have products on wheels being moved in and out eg. wheelbarrows, cars, trolleys and bikes. Ramps are available as fixed or removable and can be located at any door opening.
